

Grip-Gard® BC Basecoat

Grip-Gard BC Basecoat/Clearcoat

Grip-Gard BC Basecoat is the first true basecoat system completely dedicated to the sign industry.

Grip-Gard BC offers exceptionally fast tape times – allowing multi-color signs to be painted and out the door in only a fraction of the time.

And Grip-Gard BC provides an enormous range of colors – over 8500 in Akzo Nobel's heralded Colormap Book alone. Unlike most paint lines, metallic colors are simple to match and easy to apply evenly.

Grip-Gard BC offers an ease of application that cannot be equaled by any other paint product. You'll be amazed at the consistency and the quality of appearance you'll witness from job to job, regardless of how difficult it can be with other paints. No more wasting time with re-work. With Grip-Gard BC, you'll get the job done right the first time.

And as with all Akzo Nobel products, you can count on Grip-Gard BC Basecoat as the quality leader in the market with the highest durability available.
