

Grip-Gard® Plus

A high solids polyurethane topcoat with outstanding durability and exceptional ease of application.

Designed as an intermix system, Grip-Gard Plus can be mixed to match all popular consumer and sign industry colors. Akzo Nobel's MIXIT formula retrieval and color management system provides easy access to thousands of colors.

With Grip-Gard Plus, you only need one product line, regardless of your VOC requirements or your desired gloss level. With a choice of hardeners and reducers, you can spray at 2.8, 3.5 or 4.0 VOC levels. And while Grip-Gard Plus provides the highest gloss level in the sign industry, it can also be mixed with one of our matte reducers to achieve a smooth, even finish at any gloss level needed.

Grip-Gard Plus is a true high solids product with excellent hiding power, providing the best coverage of any coating in the sign industry. With Grip-Gard Plus, you'll quickly discover that you need less paint for the same job, increasing your efficiency and productivity at the same time, thereby improving your profitability.

And with the Akzo Nobel name, you know you can trust Grip-Gard Plus to be the most durable product in the sign market.
