

Grip-Gard Plus Satin Black

Grip-Gard Plus Satin Black is a pre-flattened, high-solids two component polyurethane enamel designed to give a perfect and even satin black finish. No need to add flattening paste – Grip-Gard Plus Satin Black provides a consistent satin sheen right out of the can.

Grip-Gard Plus Satin Black is a true high solids product, thereby providing the best coverage of any gloss modified coating in the sign industry. With Grip-Gard Plus, you'll quickly discover that you need less paint for the same job, increasing your efficiency and productivity at the same time, thereby improving your profitability.

As with all Grip-Gard Plus products, Satin Black provides excellent spray properties at 2.8, 3.5 or 4.0 VOC levels.

And with the Akzo Nobel name, you know you can trust Grip-Gard Plus Satin Black to be the most durable low gloss black product in the sign market.
